

Something you should know about Bitcoin

What is Bitcoin

Bitcoin's working mechanism uses a new decentralization technology called **Blockchain** utilizing cryptography that requires computers all over the world working together to confirm transactions. It is the candidate of the **global currency reserved** in the next era.

Is there a physical bitcoin

Bitcoins **do not exist in physical form**. Bitcoins can only be sent on the blockchain network. You need a cryptocurrency wallet to store them.

Who created Bitcoin?

It was invented by **Satoshi Nakamoto** since 2008. It is the first cryptocurrency utilizing blockchain in the world. Some people speculate that Satoshi Nakamoto is a Japanese computer scientist or an organization, but his true identity has been in doubt.

How many bitcoins are there?

Bitcoin's maximum supply is limited to **21,000,000 coins**. Because it's rare and difficult to produce, Unlike other currencies, there is no inflation.

21,000,000

When will all bitcoins be fully mined?

90% of the bitcoins were mined. With the **bitcoin halving mechanism**, we need more than **100 years (until 2140)** to mine all the remaining bitcoins.

Do I need to purchase a whole bitcoin?

Smallest unit of bitcoins is **0.00000001 BTC (1 satoshi)** because bitcoin can be divided and expressed in at most 8 decimal points. So you need not to purchase a whole bitcoin.

Who control the prices of crypto?

Global market. Prices of crypto changing every second. **Cryptoexchange** operates 24/7. Buy and sell activities on cryptoexchange determine the prices.

Why are scams in crypto market?

Transactions on blockchain are **irreversible**. Scammers use the **anonymous** and global nature to cheat victims. Never send bitcoins to strangers addresses.

How do I store bitcoins?

Download **Trust Wallet** App

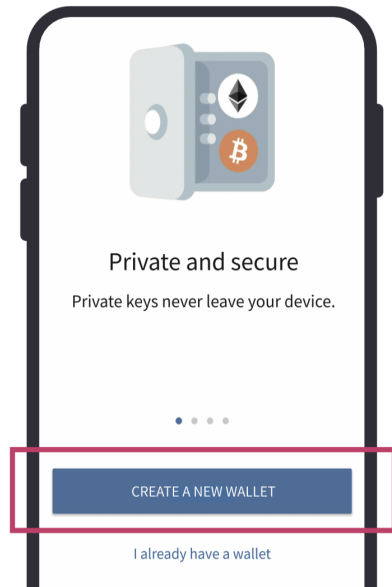

iPhone

Android

*You can also use other wallets, such as imToken, Blockchain Wallet, Electrum Wallet

Select "Create a new wallet"

Prepare paper and pen to jot down the 12 words

*Below is just an example

- | | | |
|----------|----------|---------|
| 1 lower | 2 zero | 3 time |
| 4 pipe | 5 shine | 6 exact |
| 7 yoyo | 8 kitten | 9 scan |
| 10 click | 11 wall | 12 pair |

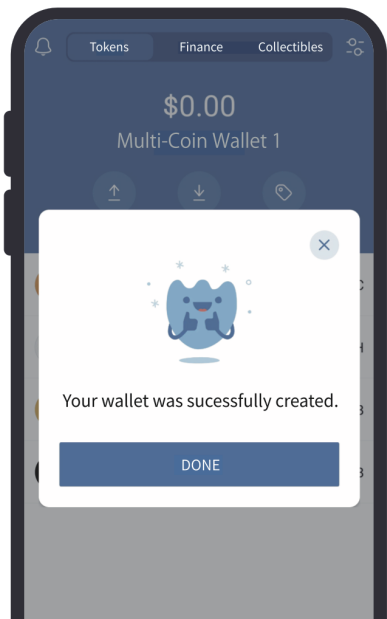

Arrange the 12 words in the correct order

- | | | |
|---------|--------|-------|
| 1 lower | 2 zero | |
| kitten | time | pair |
| pipe | shine | exact |
| yoyo | wall | scan |
| click | | |

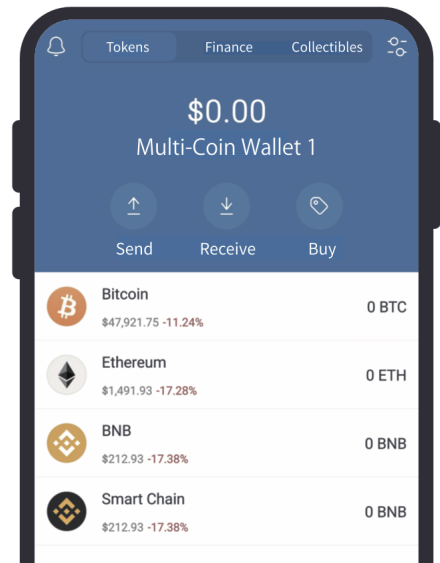

These 12 words can help to restore the assets in the wallet, if you lost your phone. Must be stored in a safe place. Do not share with anyone.

Wallet successfully set up!

Now send and receive crypto-currency through the wallet address

Multiple cryptocurrencies can be stored in one wallet

Trust Wallet was developed by **Binance**, the world's largest cryptocurrency exchange. The interface of different wallets are similar, you can also choose other reputable wallets. You should download the program from the App Store or Google Play Store, **Remember not to download from other unknown sources to avoid the trap of scammers!**

How to send bitcoins?

1. Enter wallet address of receiver
2. And send!

When sending bitcoins, the sender can customize **the sending fee**, But if the sending fee is too low, It will take a longer time to confirm the transaction.

How to receive bitcoins?

Wallet Address
QR code

bc1qzkk2elgcg26s3fa9h2p6gvve5arl
lzamm73wsv

This string is your wallet address. Others can enter the address or scan the QR code to send crypto to your wallet.

How to check Bitcoin transaction records?

Bitcoin transaction records are **open and transparent**, you can use **Bitcoin Explorer** to view the latest transaction records, such as blockchain.com or blockchair.com

The picture below shows one of the transaction records

Sending address		Receiving address	
Hash	db33cd33048aa4b7e27c389ce2e53cfd9cd270b7297a6ec894f70... 3Hdd9E61HFiaXF9ZBuHnXyJTg249NRqgxE	0.01283699 BTC	2021-04-14 18:47 18gPK3uNMpmDJAnurDHBc8ySUEpT4Q3u17
Fee	0.00019307 BTC (88.564 sat/B - 35.622 sat/WU - 218 bytes)		0.01264392 BTC 5 Confirmations
Sending fees		Number of confirmations	

- You need at least 1 block confirmation to receive Bitcoin
- It takes an average of 10 mins to confirm the number of blocks

How long will I receive Bitcoins?

Waiting time depends on

- How **congested** the blockchain is
- **Amount** of the sending fee

A **higher sending fee** encourages the miners to confirm your transaction

Even you paid a high sending fee, you still need to wait for the **next block**, which takes about 10 minutes on average

How to use CryptoExchange?

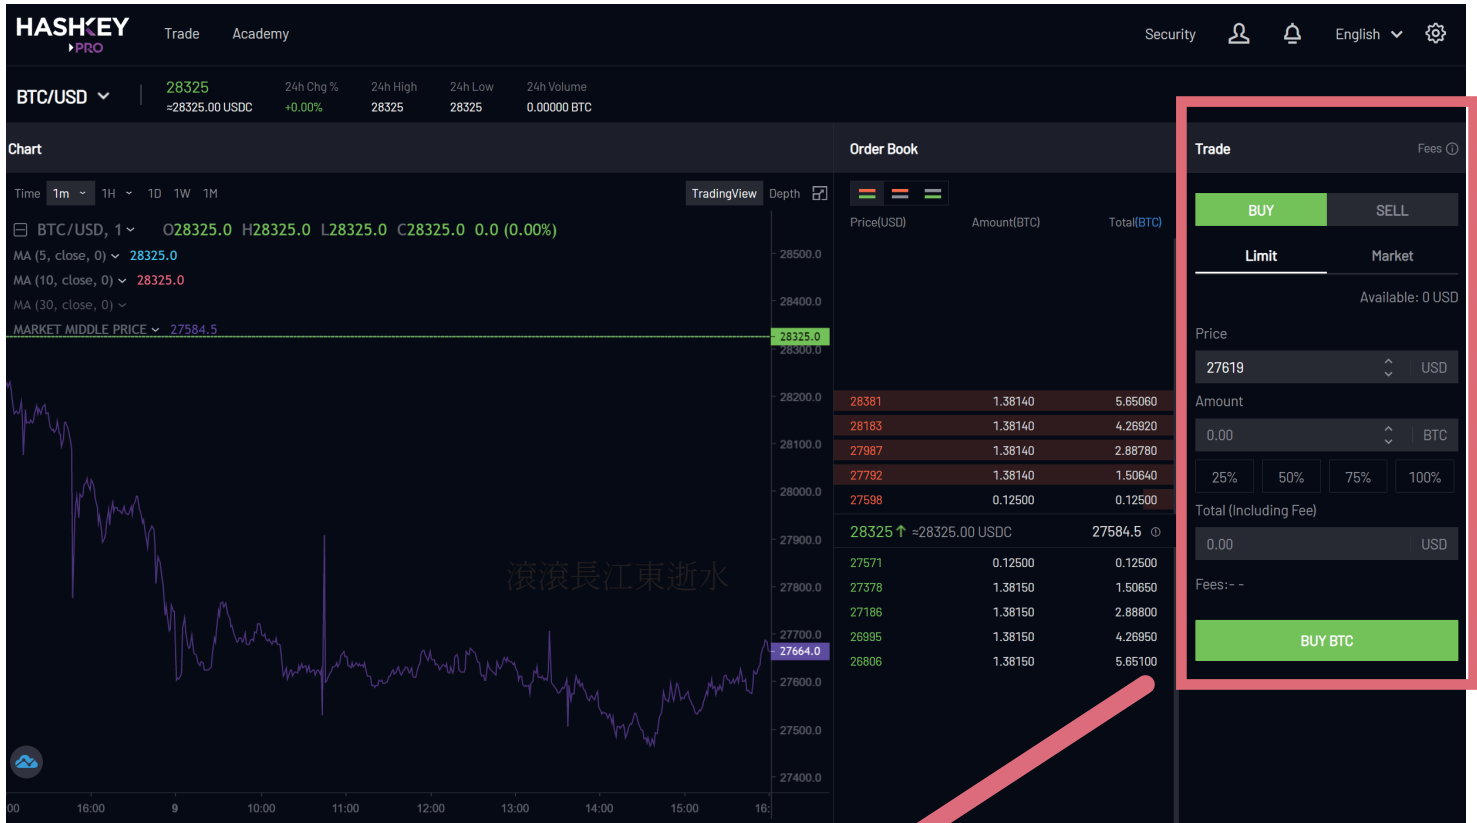

You can buy and sell Bitcoins through the cryptoExchange and convert Bitcoins into other cryptocurrencies.
